ABOUT KISIO

A partner of **public policymakers and transport authorities**. Our expertise is in **mobility, managing data for authorities** and using that data to build **digital transport products for passengers**.

- We are passenger focused
- We empower cities and public transport authorities
- We believe in open-data and public-private open-ecosystems

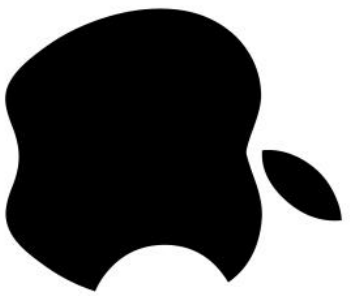

15 billion

Journey hits per year

Open ecosystem... and in mobility?

Example:

Open Innovation

New services for Citizen

Rethinking business models

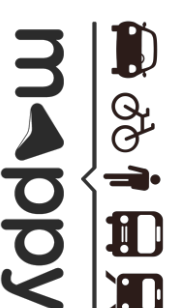

Eclactic collaborations with stakeholders

BimBam Job

Hoomano™

REAL ESTATE DIGITAL SERVICES WITH PUBLIC TRANSPORT

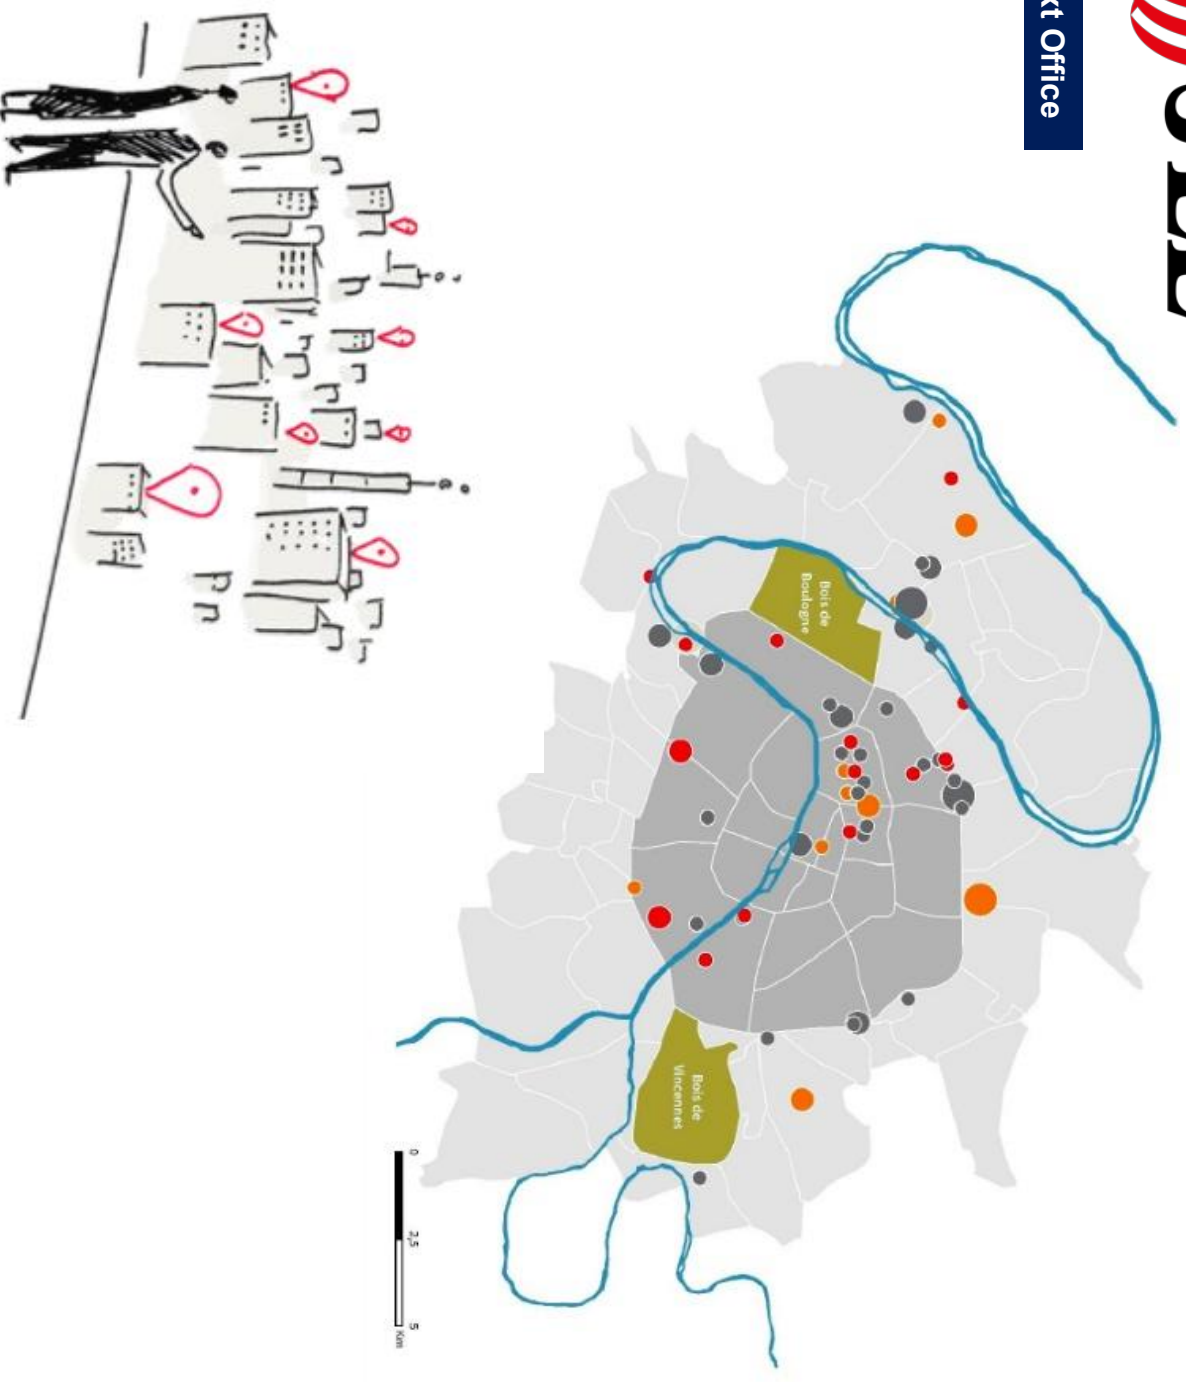

Jones Lang Lasalle

How to ensure employees quality of life by optimizing travels from home to office when a company is changing its location?
Using isochron Navitia feature !

Next Office

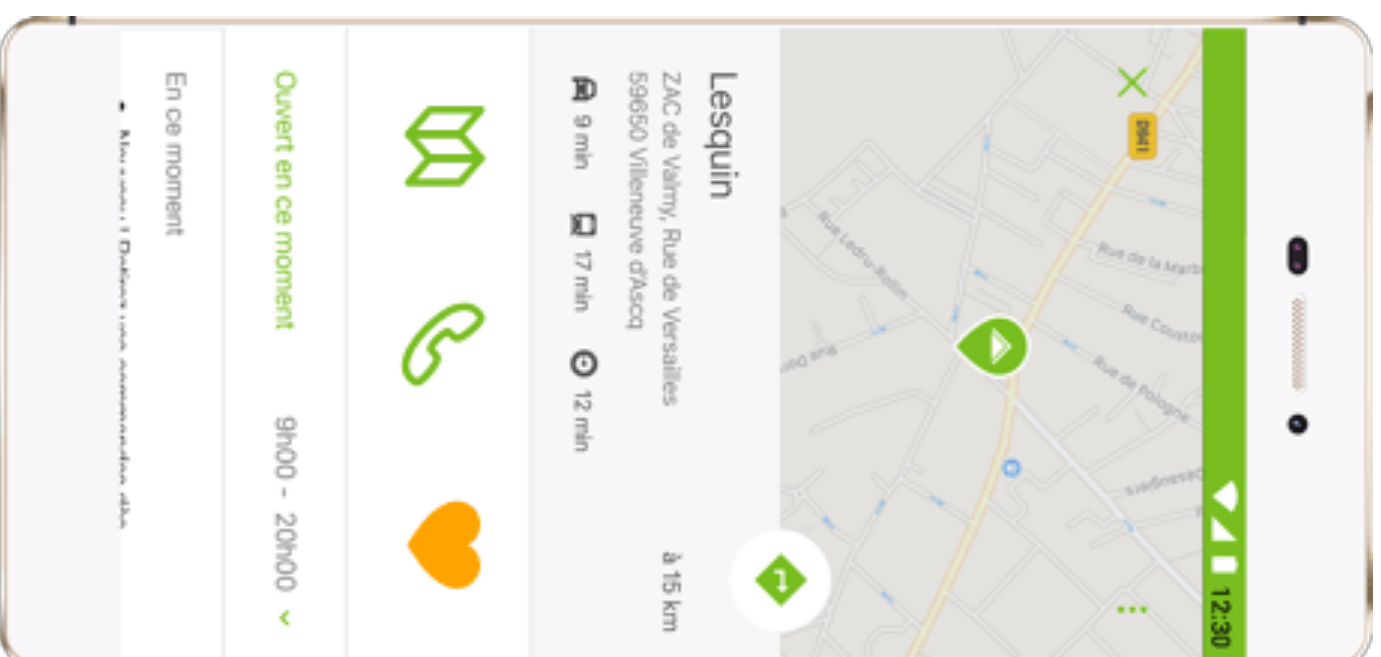

RETAIL / GO TO STORE

Leroy Merlin mobile app

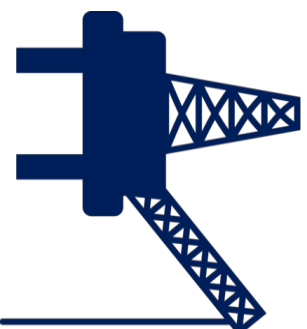

How customers
can easily get to
their favourite shop
with public
transport?

LE ROY MERLIN
